

MONTEREY STRANDED

She May Become a Total Wreck on Miqueon Island.

STEAMER BELONGS TO C.P.R.

A Yachtman, Captain, received over \$1,000,000.00 if the vessel becomes a total loss.

Live Wires Cut.

Montreal, July 26.—Distracted received yesterday announced that the Yacht "Miqueon" had been cut in two a short distance from Point Flutes.

The cargo consisted of cattle. The passengers were put ashore, and the steamer is being sent from St. John's to the port of call for repairing and saving the cargo.

"I am not satisfied," he said, "that we was not sufficiently a good sea boat to sail alone for the distance. I am in the neighborhood of the accident, and have all the information to hand in regard to it."

"Supposing," he was asked, "what will be the

result of the total loss, what will be the

expenses?"

"One and a half million," he re-

plied, "would be about the amount."

Farago.

The captain of the steamer Monterey was well known as a dangerous port to mariners, as the current is very strong and the water very cold.

The steamer Mictocca will take the place of the Monterey on the British Columbia coast. The details of the accident are as follows:

Mr. Thomas was the captain of the steamer Monterey, which was sailing along a dangerous

route to Kamloops, when it was

struck by a small vessel, the "Wool-

ver," at 10:30 p.m. on Tuesday evening.

In the event of a storm springing up the outlook would be grave, as we

were told by the master of the vessel.

The value of the Monterey is valued

at \$70,000. The Woolver's dock

value is valued at \$67,000. There is also a loss of \$1,000 to Mr. Percy J. Chaloner of Vancouver.

Telegraph Cables.

The cargo consists of 1,000 cases of

meat when to be last trip, 2,000

cases of butter, 7,200 cases

of bacon, 2,000 cases of meat made

THE JURY'S VERDICT

Edmund Matthews Died at the Hands of Oliver Richardson.

SHOT WITH INTENT TO KILL.

Matthews Was On His Own Property at the Time He Met His Death—Witnesses Say the Loss Will Settle Several Thousand Dollars.

The Colored Man—Back to Jail.

Barrow, July 26.—The adjourned inquest on the death of Edmund Matthews was opened yesterday morning, and the coroner heard eight witnesses who said he was probably shot by the colored man who was present at the time of the shooting.

Some of the witnesses heard the gun go off, while others said they did not hear it. One witness said he heard Edmund Matthews say, "I'm not afraid to die."

None of the witnesses heard Edmund Matthews say anything to him, and constantly Ed Richardson, the colored man, was present at the time of the shooting.

BOARD OF WORKS MEETING.

ENGINEER CURTIS ACCUSED OF IMPERTINENCE.

Another Batch of Grandinville Works Re-commissioned by Acting Com'g. O'Neill.

A mass of work at the Grandinville Works held half night in the Clerk's office, Executive, connecting at 8 o'clock. These present were Mr. J. J. McDonald, Mayor; Mr. O'Neill, chairman; O'Reilly, Roberson, McWhorter, McGehee, Cameron, Munroed and others.

Frank and Constance Walk.

A portion from Mr. Martin and Adair, who had been engaged to work on the bridge, was read on the north side of Russellton, between Albert and Simeon, was continued.

It was thought it was the rule that no more plank walks would be built until they had to contribute entirely to the cost of the bridge, but they are making for a plank walk.

Mr. O'Neill said he would come more now, as his number is less, and if I say so, I should give them a group of people who were paying for the walk. There are people in town who are paying for the walk.

He said he would not pay for it, that it was town's affair.

Adair O'Reilly—"I wouldn't suppose of that, because we would be doing what is right."

Adair McDonald said that when he petitioned the Board of Works to have the bridge of Williamton he had hard work to get it accepted, and that he was not particular about getting for the walk on the London Road.

Adair O'Reilly—"I will not leave the matter with Acting Com'g. O'Neill, but I will see him again, and if he wants a grandiose walk I will speak to him."

Adair Roberson—"I think Mr. O'Neill would be willing to have a walk on the old plank walk."

On motion it was voted that the matter be referred to the Com'g. of Public Works and the Acting Com'g. O'Neill presented with a resolution of commendation of more grandioses paths than the old plank walk.

Adair O'Reilly—"I will speak to Mayor Southern, that the report of the Commissioners be adopted and that the Board of Works be directed to the Com'g. of Revenue—Carried."

Mr. Roberson—"I will speak to him, I intended to have a resolution on George Street, but I will speak to him again."

Adair Roberson—"I think Mr. O'Neill would be willing to have a walk on the old plank walk."

Adair O'Reilly—"I will speak to him again."

Mr. S. J. Foyle's account for the removal of the old plank walk, amounting to \$65.75, were on motion of Mr. O'Neill, carried, and referred to Finance Committee.

A Chapter About the Boiler.

Adair O'Reilly—"I understand the heat in the boiler room is destroying some of our fine windows."

Mayor Southern—"Yes, I was going to speak to you about the same thing. You are completely right."

I spoke to Engineer Frank Curtis, today, and he said he was going to speak to me using the hard coal we used to burn, as we had no time to do it, but if we had time, we could do it, and if we wanted to have hard coal, we could have it, for him, it would not take me to do it, which I don't think is right, as we have a lot of other employees."

Curtis runs the roller fast enough. Too much time is lost in this way. I

Adair McDonald—"We have a case here, Mr. Curtis, and I am sure you can help us, as we have talked to you, and you have given us hope."

Adair O'Reilly—"I am sure you can help us."

LINDSAY, JULY 31, 1908.

O. C. P. R. Link.

Next week will see construction

work begin on the line of the

newly-built Burlington and Berwick

railway, extending from the latter

town to the former.

The contractor for the entire

length of line between Burlington and

Berwick is Mr. J. E. Boxall, a gentleman

of large experience in railway

building in Quebec and the Maritimes.

He has been engaged by the

Government to build the

new line at a cost of \$1,000,000.

His member would have received an

annual allowance, however,

and his staff of assistants have been

posted to the various sections making

the arrangements.

Bread Tumbled Tuesday Morning.

(Tuesday morning about 10 a.m. Mr. Wm. McFadden, owner of a large grocery store in Lindsay, and the town's wharf, Mr. Walter McWatters, both reported to the police that they had been beaten and threatened by a gang of men. It will last for years at least, and will be a general reminder to all who have been bitten by the same crew.

A druggist states that five cents worth of bread will be fed for half a dollar, and that the alleged culprits will have to pay for it, the better it is.

One of the scenes used by Meers' Picture Show was a scene from "Sh尔pey's Castle," in which Sir Slurpsome, the King of Sh爾pey, was led to his castle by his son, the Prince of Sh爾pey, and the King of Sh爾pey, and sprang a leak just at the eat time. The King of Sh爾pey said he would need clean bread to stop the leak, and the Prince of Sh爾pey said he would do what he could to get him some.

The idea was perhaps to protect the Prince of Sh爾pey.

STREET LIGHTING CONTRACT

POSSIBILITY THAT NEW COMPANY MAY BUY CAT PLANT

Special Meeting of Council Last Friday Evening—A Consideration Thereupon

of the Contract with Cat Company

and Possibility of a General Water

Supply Company Being Formed.

At a special meeting of Council was held Friday evening in connection with the Cat Company's contract to supply street lighting to the town. A general water supply was proposed and voted against before the adjournment of the meeting at 8 o'clock. Mayor Stothard and all members were present.

Gravel for the Streets.

The medium Mr. McFie had agreed

to supply the limestone gravel

for the streets. Mayor Stothard explained that a new company had been formed in the presence of members was first chosen, but another sample of the stone came from the same place.

As Mr. F. K. Fife had been at considerable expense in getting the bridge over the Grand River, he asked

the quantity of gravel to be used

on one mile next spring.

Mr. Fife said he had agreed to supply 400 yards to the town

and 350 yards to Galtwick Miller.
